- German (mother tongue)  
English (fluent)

## VOLUNTARY WORK

- ideenwerkstatt.digital
- Workshops for all kids and teenagers (11-18)
- Teaching programming playfully with Scratch, micro:bit, Python

## STATEMENT

Creative passion is an important driver of my work and brings a strong enthusiasm with it, that is passed on to my teammates. As an all-rounder I create scalable full-stack web applications – from the first concept to cloud-based production servers. A high degree of personal responsibility, a well structured approach and high quality standards distinguish my work.

## EXPERIENCE

### Senior Web Developer & Coach

galabau workgroup GmbH / Jan. 2025 - today

After an intensive phase of establishing structures, introducing efficient workflows, and expanding the team with outstanding talent, I decided to shift my focus back to my original passion: software development.

In my new role, I focus on designing, developing, and maintaining a bunch of web applications and APIs, while continuing to prioritize quality and innovation. I am also taking on a more prominent role in training aspiring IT specialists.

- PHP
- Laravel
- MongoDB
- Node.js
- Websockets
- REST APIs
- GraphQL
- Training

### Tech Lead & Coach

galabau workgroup GmbH / May 2024 - Dec. 2024

As a Tech Lead, I was responsible for the strategic and operational management of our team. My focus was on restructuring workflows, modernizing the tech stack, and fostering a new, collaborative team culture.

Additionally, I was actively involved in recruiting talented and motivated team members and trained two apprentices specializing in application development.

- Leadership
- Project Management
- Process Optimization
- Recruiting
- Training
- Laravel

### Senior Web Developer & Coach

galabau workgroup GmbH / Mar. 2022 - Apr. 2024

I primarily worked to enhance an industry-specific SaaS application. This included developing a new microservice for processing and standardizing GPS data delivery, as well as a socket server for fast real-time data exchange with an industry solution.

Additionally, I became a certified trainer for IT specialists in application development.

- PHP
- Laravel
- MongoDB
- Node.js
- Websockets
- REST APIs
- Training

### Senior Web Developer

Awesome Bonn UG / Aug. 2021 - Feb. 2022

I developed the prototype of a new SaaS solution using Symfony, API Platform, and Vue.js. A key aspect of the project was building a multi-tenant application based on MySQL, enabling scalable and flexible use by various tenants.

- PHP
- MySQL
- Symfony
- API Platform
- Redis
- JavaScript
- Vue.js

**Senior Web Developer & Tech Lead Digitalization**

kopfstand GmbH / Jul. 2020 - Jul 2021

I used PHP, Symfony, MySQL and Vue.js to implement websites and applications that supported the digitization of business processes. The development of WordPress plugins as well as the implementation of agile workflows were part of my tasks.

- Digitalization
- Conception
- PHP
- MySQL
- WordPress
- Symfony
- JavaScript
- Vue.js

**Senior Web Developer & Team Lead**

Influry GmbH / Jun. 2019 - Jun. 2020

I used PHP, Laravel, Vue.js, MySQL, MongoDB and many other technologies. I implemented agile development workflows and managed a small team of 4.

- Leadership
- Conception
- PHP
- MySQL
- Laravel
- Elasticsearch
- JavaScript
- Vue.js

**Senior Web Developer**

contentbird GmbH / Dec. 2018 - May 2019

I developed REST APIs and crawlers for data mining purposes, that feeded their data in to machine learning models, using Python. Another project was a JavaScript tag manager, including user and event tracking.

- PHP
- Python
- MySQL
- Laravel
- FastAPI
- JavaScript
- Node.js

**Lecturer Web Development**

Digital Career Institute gGmbH / Sept. 2017 - Nov. 2018

I trained students, with different cultural and professional backgrounds, to become Junior Web Developer, introducing common programming basics as well as the following: HTML5, CSS3, JavaScript ES6, React, Node.js, Express

- Training
- Knowledge Transfer
- Company start-up
- Curriculum
- JavaScript
- React

**Head of Development**

linkbird GmbH / Jan. 2014 - Aug. 2017

I managed the restructuring and expansion of the development team, including the introduction of modern tools, workflows and quality assurance. linkbird was running a PHP SaaS with Laravel and MySQL.

- Leadership
- Recruiting
- Conception
- PHP
- MySQL
- Laravel
- JavaScript

**Senior Web Developer & Team Lead**

Chefkoch.de (Pixelhouse GmbH) / Sept. 2006 - Dec. 2013

I used PHP, MySQL, HTML, CSS and JavaScript, to extend the web application and did an extensive refactoring for internationalization. I also established a Front-End team and managed a full responsive ReDesign.

- Leadership
- Conception
- PHP
- MySQL
- HTML & CSS
- JavaScript
- jQuery
